

PATIENT/CLIENT EDUCATION

A life of health and purpose

LEGACY MAKERS TEAM

Hello Brand Ambassador,

Here is a sample of how you can **EDUCATE** client's & patient's on THREE's Products when in Office, Virtually or Over the Phone.

Professional: Hi [Patient's/Client's Name], how have you been feeling lately?

Patient/Client: Hi [Health Professional's Name], I've been doing okay, thanks. How about you?

Professional: I'm doing well, thank you. I've been exploring some new options to further improve the results we are working towards. I wanted to ask if you'd be open to trying some industry-disruptive health supplements to enhance your overall health and wellness. I like knowing that they absorb with 11 different delivery cellular systems and they're listed in the PDR where most professionals frequent to check the quality of wellness products. I highly recommend them. (Insert your experience and findings)

Patient/Client: That sounds interesting. What kind of supplements are you talking about?

Professional: These are high-quality supplements from a company called Three International. They're backed by research and have shown significant health benefits. I believe they could make a real difference in your health journey.

Patient/Client: I'm definitely interested in anything that can help. How do these supplements work?

Professional: These supplements are designed to complement your current health regimen, boosting your results and supporting your overall well-being. By integrating them into your daily routine, you might notice improved energy levels, better immune support, and enhanced overall health. (Refer to Health Need's Chart/ABC's pdf for troubleshooting clients needs)

Patient/Client: That sounds promising. Are there any other benefits?

Professional: Absolutely. Beyond the direct health benefits, by using these supplements, you're supporting a practice that reinvests in patient care and community health initiatives. It's a way for us to keep improving the services we provide to you.

Patient/Client: That makes sense. How can I get started with these supplements?

Professional: Let me provide you with more information and help you select the right supplements for your needs. I can have (front desk) give you some brochures or you can scan this QR code to order (recommended products/carts for their need) using your phone here. Does that sound good?

Patient/Client: Yes, that sounds great. Let's do that.

Professional: Great! Thank you for your order. Shipping usually takes 3-5 biz days from time of order. We can discuss your progress at your next appointment. I'm confident that these supplements can make a positive impact on your health journey.

We hope this was helpful!

Sincerely,
The LM Team
